Asia Australasia Alliance

Together, we cover your world.

About

Asia Australasia Alliance (AAA)

Imagine if some of the most committed and respected insurance broking companies in the Asia Pacific Region formed an alliance with the objective of improving their clients' access to professional insurance solutions. Consider the confidence that would inspire clients who need to widen their insurance net beyond their own home countries.

The AAA brings together a network of insurance broking firms to create a resource that benefits clients through the expansion of professional links and provides a forum for all members to contribute to the development of the industry.

The members of AAA collectively handle annually premiums of USD \$500 million and employ over 750 staff across eleven countries and territories. We arrange and manage quality insurance programs for clients throughout the Asia Pacific Region - that's why we can say with confidence, "Together, we cover your world".
